Permit Number: OCRM-06-271-M
Permit ID: 55428

The SCDHEC Office of Ocean and Coastal Resource Management has received an application for a permit for the alteration of a critical area. This application was submitted pursuant to the Coastal Zone Management Act (Act 123) of the 1977 South Carolina General Assembly. The application, in brief, is described as follows:

APPLICANT: Charles B. Coe
2000 Heron Island Way
Wadmalaw Island, SC 29487

LOCATION: On and adjacent to Leadenwah Creek at 2000 Heron Island Way, Wadmalaw Island, Charleston County, South Carolina.
TMS#: 155-00-00-035 & 155-00-00-036.

WORK: The work as proposed and shown on the attached drawings consists of constructing two erosion control devices. Specifically, the first structure will be a 5' high by 5' wide by 100' long revetment, with the second being, 5' high by 5' wide by 400' in length. Both revetments will be constructed of filter cloth and one-man size stone placed at the respective sections of the eroding shoreline. The purpose of the proposed activities are for erosion control.

This public notice is being distributed to all known interested persons and agencies to assist in developing facts on which a decision by OCRM can be based. Comments concerning the proposed work should be submitted in writing, setting forth sufficient detail to furnish a clear understanding of the reasons for support or opposition.

The decision to issue or deny a permit will be based on the individual merits of the application, the policies specified in the South Carolina Coastal Zone Management Act, and the considerations outlined in the State of South Carolina Coastal Zone Management Program. Interested parties who wish to be notified of final permit action must notify OCRM in writing of this request.

To assure review by OCRM, comments regarding this application must be received by OCRM on or before September 9, 2006. For further information please contact the project manager for this activity, Fred Mallett at 843-747-4323 ext. 119.
